OPPO N1 Rear Case Replacement

Replace the rear case.

Written By: Max Pietsch

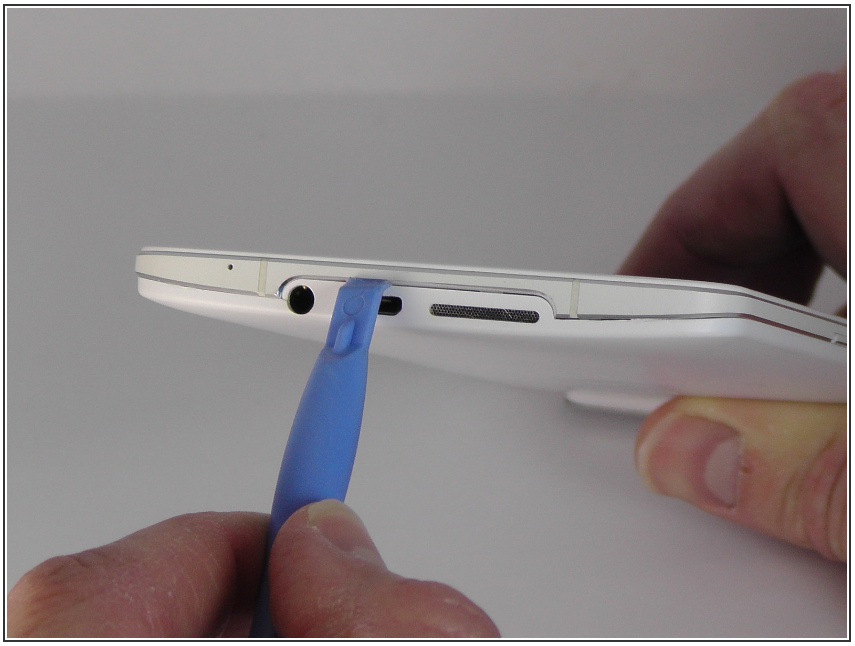

INTRODUCTION

Use this guide to replace the rear case on your Oppo N1.

TOOLS:

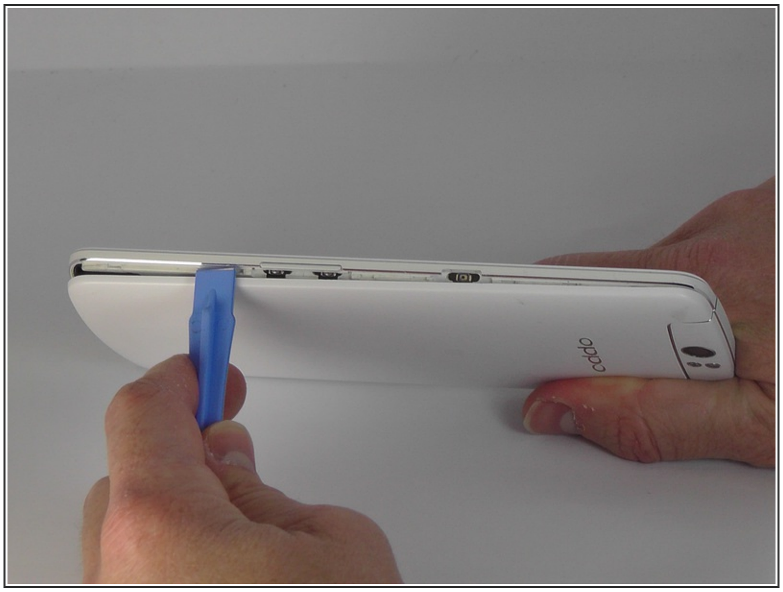

- iFixit Opening Tools (1)

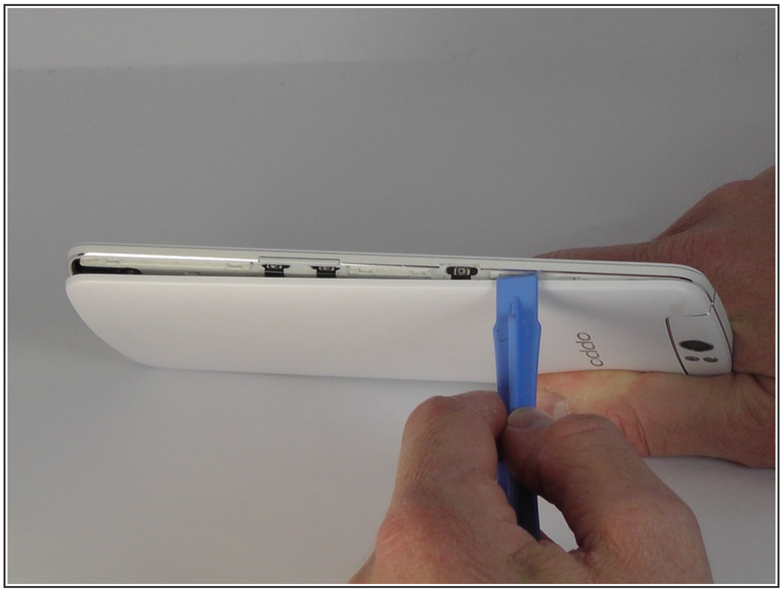

Step 1 — Rear Case

- Insert the plastic opening tool into the crevice. The back cover is most easily opened by starting at this location.

Step 2

- In the photo we rotated the phone ninety degrees counterclockwise.
- Gently slide the plastic opening tool around the edge of the phone to release the back cover from the phone. You may hear some snapping noises as you release the back cover.
- The rear case should then come free.

To reassemble your device, follow these instructions in reverse order.
